DAILY PROCEEDINGS OF THE FORTY-SIXTH CONGRESS.

Contest Over the Confirmation of Simmons—Charlie Ross Again—Lost at Sea—Other Late Dispatches.

WASHINGTON, D. C., Feb. 7.—All the Georgia members of Congress have become involved in the contest over the confirmation of Simmons as Census supervisor.

To-day the Democratic members from Georgia who are opposed to Simmons' confirmation held a conference and agreed to use all their influence in sustaining Gordon, the paper protesting earnestly against the confirmation of Simmons being signed, and will be submitted to the Senate Committee on Census, and if necessary will be used, when the case comes before the Senate in executive session for action. This protest is signed by Senator Gordon and Representatives Nicholls, Smith, Cook, Persons, Hammond and Blount. Senator Hill and Representattves Stephens and Felton are supporting Simmons, and it seems that Representative Speer has not yet joined either side of the controversy. In the discussion before the Census Committee yesterday, Mr. Hill stated that Representative Nichols favored the confirmation Senator Gordon denied this, and remarked that he wanted more than the word of his colleague to satisfy him that it was true. A rough passage took place between Senator Gordon and Mr. Stephens too. The latter said he had heard that the former was seeking to reject Simmons because he wanted exmarshal Smythe appointed supervisor. General Gordon peremptorily demanded to know who had told this. Stephens declined to give his authority, and Senator Gordon said: "Th n I pronounce it an infamous, infernal falsehood, from whomever it may come."

WASHINGTON, D. C., Feb. 7.—The House Committee on Pensions at their meeting to-day agreed upon the report favorably to a House resolution of Representative Vance, "that the Act of March 9th, 1878, be so constructed as to include all that class of soldiers and their widows who served fourteen days in the military or naval service of the United States during the war of 1812, notwithstanding a portion of the time occurred before the declaration of war or af er the proclamation of a treaty of peace with Great Britain."

New Route to the Southwest.

NEW YORK, Feb. 7.—Gov. Jarvis, of North Carolina, is here on business connected with the propose l sale of the State road which runs from Salisbury to the Tennessee line. Several New York capitalists are in negotiation for the sale of the road, desiring it as a connecting link in a projected new through route to the southwest.

Foreign Flashes.

LONDON, Feb. 7.—A Berlin dispatch says that the Ultramontanes in the Bavarian Chambers have resolved to appeal to the King, imploring him not to consent to the augmentation of the army of Paris.

A dispatch states that Gaulois positively asserts that 22 dead and 116 wounded is the sum total of the casualties of the recent railway accident.

LIVERPOOL, Feb. 7.—A court of inquiry on the Borussia disaster has exonerated the owners, Captain and officers of the vessel, but is not prepared to say whether the vessel was perfectly seaworthy.

The Irish Relief Fund in New Orleans.

NEW ORLEANS, Feb. 7.—The *Picayune* applauds the munificence of the New York *Herald's* contribution for the famine-stricken Irish, and has opened a subscription for the *Herald* Irish Relief Fund, heading the list with a liberal contribution. All collections will be forwarded to the *Herald* for distribution.

Commissioner Nichols vs. Mayor Cooper.

NEW YORK, Feb. 7.—The sharp and bitter contest between ex-police commissioner Nichols and Mayor Cooper which has been bitterly fought since the ousting of the commissioner from the police department, finally resulted to-day in a complete victory for Nichols by the decision of Judge Lawrence which has just been given reinstating him in office. The matter will come before the court on a writ of *certiorari* to review the action of Mayor Cooper in removing Nichols.

A Louisville Fire.

LOUISVILLE, Feb. 7.—A fire in the Depaw glass works last night destroyed the pot house, box factory and grinding house, and a large store house. Loss $35,000 to $50,000; insurance $10,000. It is believed to have been the work of an incendiary.

Railroad Officers on Trial for Manslaughter.

PHILADELPHIA, Feb. 5.—The case of Elwood Johnson and John Ewing, the engineer and conductor of the freight train on the Philadelphia and Atlantic City narrow gauge railroad, which collided with a special passenger train on the 14th of August last, charged with manslaughter, was given to the jury at noon yesterday. This morning they returned a verdict of not guilty in the case of Conductor Ewing, but were unable to agree upon a verdict in the case of Engineer Johnson.

Charlie Ross to the Front Again.

NEW YORK, Feb. 7.—The *Herald* revives the stories of the detectives having obtained the clue to the missing Charley Ross. It says two or three of the most astute detectives on the force have been daily in consultation with Superintendent Walling, under whose directions they are working. For a time their secret was well kept and their movements remained unexplained, but at last the reporter heard enough to satisfy himself that the superintendent and his picked men had at last obtained a clue which they expected would lead to the recovery of Charley Ross, and arrested several persons who are concerned in his abduction. It says a bulky letter will be received this morning by Mr. C. K. Ross, father of the missing boy, that the clue now being worked is four years old and implicaaes parties belonging to a gang in which the burglars Masher and Donal operated.

The Irish Relief Fund.

The announcement of Drexel, Morgan & Co., of New York, that they will no longer act as treasurers of the money raised through the instrumentality of Mr. Parnell, has no possible reference to the service of Messrs. Drexel & Co., of this city, as treasurers of the citizens' relief committee. Mr. Parnell has been unfortunate in exciting—whether justly or unjustly is not necessary to inquire—a degree of personal feeling that might seriously injure the cause he has at heart were not the claims of the Irish people so urgent as to forbid the very thought of personal considerations.

EDISON EXPLAINS IT.

His New Electric Light Graphically and Precisely Described.

From his Patent Office Application.

Be it known that I, Thomas Alva Edison, of Menlo Park, New Jersey, United States of America, have invented an improvement in electric lamps and in the method of manufacturing the same (case No. 186), of which the following is a specification. The object of this invention is to produce electric lamps giving light by incandescence, which lamps have high resistance so as to allow of the practical subdivision of the electric light. The invention consists in a light-giving carbon wire coiled or arranged in such a manner as to offer great resistence to the passage of the electric current, and at the same time present but a slight surface from which radiations can take place. The invention further consists in placing such burner of greater resistance in a nearly perfect vacuum, to prevent oxidation and injury to the conductor by the atmosphere, the current so conducted into the vacuum bulb through platina wires sealed into the glass. The invention further consists in the method of manufacturing carbon conductors of high resistance, so as to be suitable for giving light by incandescence.

Heretofore light by incadescence has been obtained from rods of carbon of one to four ohms resistance, placed in closed vessels, in which the atmospheric air has been replaced by gases that do not combine chemically with the carbon. * * The leading wires have always been large, so that their resistance shall be many times less than the burner, and, in general, the attempts of previous workers have been to reduce the resistance of the carbon rod. The disadvantages of following this practice are that a lamp having but one to four ohms resistance cannot be worked in great numbers in multiple arc without the employment of main conductors of enormous dimensions; that owing to the low resistance of the lamp, the leading wires must be of large dimensions and good conductors, and a glass globe cannot be kept tight at the place where the wires pass in and are cemented; hence the carbon is consumed, because there must always be a perfect vacuum to render the carbon stable, especially when such carbon is small in mass and high in electrical resistance.

The use of gas in the receiver at the atmospheric pressure, although not attacking the carbon, serves to destroy it in time by air-washing, or the attrition produced by the rapid passage of the air [gas?] over the slightly coherent, highly heated surface of the carbon. I have reversed this practice. I have discovered that even a cotton thread properly carbonized and placed in a sealed glass bulb exhausted to one-millionth of an atmosphere, offers from 100 to 500 ohms resistance to the passage of the current, and then is absolutely stable at very high temperatures; that if the thread be coiled as a spiral and carbonized, or if any fibrous vegetable substance which will have a carbon residue after heating in a closed chamber be so coiled, as much as 2,000 ohms resistance can be obtained without presenting a radiating surface greater than three-sixteenths of an inch. I have carbonized and used cotton and linen thread, wood-splints, papers coiled in various ways, also lampblack, plumbago and carbon in various forms mixed with tar and rolled out into wires of various lengths and diameters.

Supreme Court.

Court opened at 10 o'clock yesterday morning. All the justices were present.

The consideration of appeals from the Fourth Judicial district was resumed and causes were disposed of as follows:

State vs. Hooks & Jordan, from Anson; argued by Attorney General Kenan for the State; no counsel for the defendants.

State vs. Miles Hinson, from Anson; argued by Attorney General Kenan for the State, and Gray & Stamps and G V Strong for the defendant.

State vs. Miles Hinson, from Anson; argued by Attorney General Kenan for the State, and Gray & Stamps and G V Strong for the defendant.

Wm Griffin et als. vs. Josephine Griffin, from Robeson; two cases, continued for absence of counsel.

A A McLean vs. John Patterson et als., from Columbus; continued for want of counsel.

A B Currie and wife vs. Malcom McNeill, executor, et als., from Moore; argued by Hinsdale, Devereux & Worthy for the plaintiffs, and G V Strong for the defendants.

Court adjourned, pending the argument in last named case, until 10 o'clock to-morrow (Monday) morning.

The following is a list of the cases from the Fifth district, as far as docketed on yesterday, which will be called in regular order to-morrow morning:

193—Ruffin et als vs Harrison et als.
194—Ruffin et als vs Harrison et als.
195—Latta vs Vickers.
196—Cobel et als vs Coble, admr.
197—N C R R Co et a. vs Alamance county.
198—Mulholland vs York.
199—Gill et als vs Young et als.
200—Craven vs Freeman, admr.
201—Drake et als vs Drake et als.
202—Strudwick vs Brodnaxet als.

Married.

On Wednesday the 4th instant Mr. Robert S. Stone, of Louisburg, was united in matrimony to Miss Eliza A. Whitley, daughter of Mr Mike Whitley, of Wake county. The marriage took place at the residence of the brides father. Rev. W. C. Norman, officiating.

On Thursday the 5th instant, Mr. Joseph G Vaughan, of Franklinton, and Miss Emma A. Card. Rev. J. W. Wellons, officiating.

Valuable Property for Sale.

The house and lot, formerly occupied by Mrs. Harriet Andrews, corner of Hillsboro and Dawson streets, will be sold at public auction at the court house door to-morrow at 12 m. This house is on one of the most pleasant streets in Raleigh, near the Capitol, and we would advise any one who wishes to purchase a good home in our city to attend the sale.

Let us See About This.

Statesville Landmark.

One more word about the Western North Carolina Railroad: Some of the newspapers say that if this property is regarded by parties in New York and elsewhere as so very valuable, it ought to be regarded as equally valuable by the State and the State ought to hold on to it. Let us see about this. Suppose a gentleman should hold a ticket in, for instance, the Louisiana lottery, and should draw an elephant, and Mr. P. T. Barnum or Mr. John Robinson should go to him and offer him $5,000 for it, and this gentleman should decline to sell, saying "No, sir; if the elephant is worth $5,000 to you it is worth $5,000 to me." Now, let the reader just suppose this case and answer if he doesn't think any jury in the world would acquit any man who would fall upon this elephant-owner and kill him?

Are the two cases not parallel, and if not, why not?

A BONANZA'S PALACE.

THE KIND OF A HOUSE THAT FLOOD BUILT.

From a Little Grocery and Bar Room They Suddenly Rise to the Owners of Rich Mines, etc.

James C. Flood, one of the famous Bonanza quartet, and said to be the prospective father-in-law of the son of the man who longeth with a great longing after a third term, has nearly completed his palatial summer residence in the valley stretching along by the bay, between San Frisco and San Jose. Most of us rejoice if we can pay for twenty-five feet front. This Flood has covered land enough to give thousands of us twenty-five feet and a garden patch besides. He used to keep a little grocery down near the city front; he and Billy O'Brien, the Bonanza jewel, which was taken to its final setting more than a year ago. The little shop was a favorite place with miners, and as the chain lightning he furnished slipped down their throats their tongues were loosed, and carefully guarded secrets crept out from their hiding places, and seeing their opportunity, slipped off the miners' tongues, taking refuge in the generous ears furnished to Jim Flood, for he was only Jim the barkeeper, then. And so he gathered the valuable bits of information which they dropped, along with the other "bits" which rapidly filled his till. By and by Jimmy Flood and Billy O'brien "caught the fever," and manifested more interest in the mines of Nevada than they did in the little grog shop in town. And they bought old claims from men who had become discouraged and lost their grip, adding to them other claims from men who were glad to shift to some other quarter. The people talked and said they were a choice pair of fools; that the savings of the little barroom would vanish long before they could strike ore; that the claims would not pan out well; and so on to the end of the chapter. But these two shovelled and blasted until the world knew that, in spite of the croakers, they had struck it rich and the owners of a large slice of what the world knows as the "famous Comstock Lode."

The stock of their mines went up like a shooting star, changing from a few dollars to near hundreds in two or three days. Californians were nearly driven crazy over the sudden stroke of fortune, and gambling in the shares of these mines made fortunes for a few, and made beggars and suicides of many. At some point of their adventures James Fair and W Mackey were added to the firm, which waxed rich with marvelous rapidity. How many millions are they worth? I dinna know, nor do I think they can just tell themselves. Probably a good many when there are marriage settlements to make, but only a few when the tax gatherer passes by. They own a bank with a paid up capital of between ten and twelve millions; they own a controlling interest in several mines; they own individually large sums in government securities (Flood's interest from four per cents amounting to $180,000 per annum); They own in Nevada waterworks, mills, timber lands—everything under heaven they can made a monopoly and make money out of. They are building a narrow guage railroad down the coast, and a good one, too; they are erecting palatial residences in and out of town. The fact is, they own—well, a good deal; among other things, the reputation of making beggars of more men, women and children, through bulling and bearing the stock market, through carefully managed misrepresentation and distortion of facts than all other causes in California. During the excitement over the Sierra Nevada mining stocks, which in a few days rose from $1 to near $300 a share, and then dropped to $50, beggaring many who had staked their all, and were carrying on a margin, perhaps, James Flood racked to the rollicking barroom days and thought them his happiest, for an indignant public felt its fingers itching to grasp the throat of the man who, because he could not rule, had determined to ruin. Mr. Flood has broad, liberal ideas—when "me or my folks" are concerned; he doesn't like his plebian neighbors to come too near him; he doesn't want curious passers by staring him out of countenance. And so he builded with a due regard for his elevation from Jim Flood, B. K. (which the same means bar keeper), to James C. Flood, Esq., Bonanza King—alle same B. K.; you sabe? He has a house and lot, the latter containing a trifle over fifteen thousand acres; quite a slick little garden patch, where he can raise sass and things. But it isn't garden seed he's planting—its money. So he is not leaving nature unadorned, but it is just slinging slathers of pretty things all over his lot—artificial lakes, serpentine walks, drives which wind about here and there and everywhere, game preserves, labyrinths, fountains, terrace walks, bronzes, statuary and flower-a dens fit for fairies to dwell in. Leaving the lot just as Edison's electric light changes the whole scene into fairy land, we will examine the house thereon. It is of irregular proportions, the facades being 129 and 230 feet respectively, with an observatory 150 feet high. There are turrets and towers, bay windows and triel windows, a fine *port cochere*, a grand and still a grander entrance, verandahs 20 feet wide—in a w, everything which artists could suggest to contribute to the grandeur of the building. Examining the interior arrangements, they prove as excellent as those of the exterior, and in the same grand scale. The basement floor is divided into wine cellars, larders, fuel rooms, and has also the heating and ventilating apparatus. The ground floor contains the grand halls and staircases, the library, dining and billiard rooms, conservatory of music, dancing rooms, reception and drawing rooms, smoking rooms, a butler's pantry 20 feet square, smaller pantries, servants' offices, etc. When, on fete nights, the entire floor is thrown into one room (as, with the exception of pantries and servants' offices, it can be) the spectacle will be magnificent indeed. The picture gallery is on the second floor. This room is lighted by handsomely-designed ceiling lights of stained glass. The remainder of the second floor is divided into boudoirs, guest chambers, family rooms, dressing apartments, and bath rooms, where one may luxuriate in the Turkish or Russian process. The third floor is designed to furnish room for the small army of servants necessary to keep the wheels of this fine establishment greased and in running order.

Slowly descending from the heights, the mosaic work of the floors, the mantles of various colored marbles, inlaid with onyx, malachite and other costly stones; the frescoing of the ceilings, the variety of the woods used, the handsome carving and artistic finish of the entire building is noted. Passing out through the kitchen, which is formed in one lofty story, open to and ventilated at the roof, the magnificent conservatory is next visited. This is on as grand a scale as the house, and will always furnish choice flowers in sufficient quantities to decorate all the apartments of the mansion. The rarest plants will be cultivated, with blossoms daintly enough to adorn either a bride or a B. K. Crossing a lawn to some distance in the rear and to the right of the house the stables appear. They might be mistaken for the residences of some of the people a trifle less favored than has been James C. Flood, Esq., B. K. But they are occupied by aristocratic horses, which would sniff the air contemptuously at sight of the steady-going family horse which goes regularly to mill on week days and to meeting on Sunday. There are sixteen boxes and stalls, with all the modern appliances for the comfort of the occupants. Private gas and water works supply the entire establishment, and every detail has been carefully looked after, making this one of the most elegant private residences in the world.

OUR MATERIAL PROSPERITY.

A Review of the Progress of North Carolina Laborers.

Correspondence of the News.

The material development of North Carolina is a subject that should engage the attention and enlist the energies of every son of the State.

Not that, in the effort for material progress, we should neglect the mental and moral improvement of our people far from it. Material and intellectual advancement must go together. Without the one we cannot procure the other. We must have material prosperity to give us mental progress. From the acquisition of wealth we derive the means for public education and improvement, and in proportion as the State materially improves, will our public school fund increase.

It must be gratifying to the pride of every North Carolinian that the signs of material improvement are to be noted on every hand. There is perhaps no State of the Union, all things considered, wherein the evidences of steady growth are more manifest than in our own. Certainly no State of the South shows apparently a more healthy condition of the prosperity of its people than North Carolina.

Our mineral lands have attracted the attention of enterprising capitalists, and the amount of Northern capital and energy now at work in the development of our mineral wealth, if accurately stated would surprise most of our reading people. We have not all the facts at hand, but hope soon to present some statistical figures on this subject of interest to our people as well as those abroad. And when the census compilers shall have finished their labors this year, we expect the mineralogical showing of North Carolina to create a profound impression among the capitalists of the North and of Europe.

Our manufacturers of cotton are in the full tide of prosperity, and the success now attending the cotton spinners in our State is leading capital and enterprise into the erection of new factories in several portions of the State. There is no branch of industry from which we have to expect more gratifying results in the future, than from the manufacturing of cotton.

The tobacco manufacturers are likewise doing well on every hand, and tobacco factories are also multiplying. Altogether, the producers of these staple articles—cotton and tobacco—were never doing better in their lives, and with increased facilities for transportation and manufacture, these products must rapidly multiply, and their stimulus is the stimulus of all other industries of the State. Our production of breadstuffs is greatly on the increase, and various branches of manufacturing are extending themselves.

At New Berne, for example, we have in the most successful operation a wooden plate factory, only one other like it in the United States. Its production is simply enormous, its profits large, while it affords good employment to a number of people, and utilizes, as a cash article, hitherto worthless woods, with which our eastern swamps so largely abound. In the same city is also just erected a rice mill, of new and superior design, which will lead to the erection of others, and stimulate the production of rice throughout Eastern Carolina, where the lands have been found admirably adapted to its growth, and from which the profits are, if possible, larger than from the growing of cotton and tobacco.

In noting these evidences of a growing prosperity, it is not the least gratifying to observe the constantly improving condition of the mere laboring population. This class has made rapid progress in material accumulation since the war. Men who were mere "hirelings" under the system of twenty years ago are now well-to-do landed proprietors; some, in fact, who, at a much later date, occupied the station of laborers, are now our men of wealth. Notably is this improved condition of things manifest among the colored population. With that class the example of accumulation is most striking, for it may be assumed that at the close of the war the colored people were universally without possessions. Now the instances are almost innumerable in which the colored people are property owners. We could cite cases of actual individual wealth in North Carolina, of colored people, and as a class they are daily improving their condition, a fact that cannot be otherwise than heartily gratifying to every one who really loves his State and shares an interest in her material well-being.

A country is always well off whose laboring population is contented and prosperous. Nowhere is this State of things more apparent than here. Whether he be white or colored, the laboring man in North Carolina is remunerated for his services, and if he be frugal, is laying the foundations of a personal fortune with the savings from his daily earnings.

We are much encouraged by present conditions and the future outlook. We see a spirit of enterprise manifesting itself everywhere. We observe a growing intelligence among the masses. We note a better community of sentiment among all our people. In fine we see that the car of progress is in motion, and that go where you will, turn where you may, you meet a North Carolina yeomanry of intelligence, industry and enterprise, and taken altogether, our people constitute a population of which no State or country could fail to indulge a just pride.

TROUBLE IN THE CAMP.

NORTH CAROLINA REPUBLICAN DELEGATION.

How It Was Secured for Sherman—Bad Feeling in the Ranks—Indignation Meeting.

Logan Harris in New York Times

Mr. J. C. L. Harris, the Raleigh correspondent of the New York *Times*, in a communication to that paper published in its issue of Friday last, after reviewing the action of the late State Executive Committee, and telling how Sherman captured the same, concludes as follows:

"Field Marshal Canady was now ready for the fray. On the 29th, when the committee were to meet at Raleigh, every Federal office holder in the State, high and low, who could be depended on to work for Sherman, was on hand to hold Harris, the colored member, firm, who was evidently regarded as a little unsteady. Sherman managers had brought on ex-Congressman Elliott, of South Carolina, now a special agent of the Treasury Department and chairman of the Republican committee of his State. He had made several visits here during the past three months, and was generally engaged in keeping close to the ranks of Sherman's bread and butter brigade.

Elliott was loud in the assertion that the same tactics, employed in South Carolina, had already made it certain that Mr. Sherman would have a solid delegation from that State. When the committee met Canady felt sure of his victory.

Mr. Keogh, the chairman, was to be succeeded by Mr. Grandy, and everything done as the Sherman men wanted. The suggestion that a State Convention should be held, as every other State had determined upon, was scoffed at and promptly voted down. When it came to electing delegates for the State at large, to the convention, the only men in the State outside of the Sherman men felt sufficiently sure about the election was General Scringer who had been secured beyond doubt. Then Canady, Harris and Starbuck solemnly voted for himself and each other as delegates at large from the State of North Carolina to the National Republican Convention were thus appointed.

These men will pretend that they represent the Republicans of North Carolina. The wishes and desires of these have been shamefully disregarded, with utter disregard to the ardent desires of the Republican masses of the State, Secretary Sherman has secured a delegation in his interest.

The proposition that no delegates should be sent to Chicago, and the selection of candidates and the making of a platform be left to the States which are Republican and upon whom success depends, was contemptuously disregarded. Secretary Sherman had demanded a solid delegation and it was given him. Thus the solid Democratic South is made to send delegates to the Republican convention to force the nomination of a candidate for the Presidency in utter disregard of the wishes of the Northern States and to the crushing ruin of what is left of the Republican party in the South.

The indignation of the Republicans of North Carolina is intense. Four delegates bought like goods in the market to misrepresent them at Chicago, is an outrage they are not likely to tamely submit to. The action of the committee has precipitated a fight throughout the Congressional districts between Grant and Sherman. Canady claims that he can capture the delegates from the First, Third, Sixth, Seventh and Eighth districts. It is certain that every wire will be pulled and every device resorted to to carry out this boast. The Second, Fourth and Fifth districts are conceded to Gen. Grant.

Sufficient time has not elapsed for the consideration of the proposition to call a State Convention for appointing the entire delegation to Chicago. Much in this respect will depend upon the bribery tactics of the Shermanites in the various districts. Canady, when he returned to Wilmington from here, on the day after the meeting of the Committee, was confronted with a huge indignation meeting, which condemned the action of the committee, denounced Canady, and endorsed the Hon. Daniel L. Russell as the choice of the Republicans for delegate to Chicago from the district."

Aid for Starving Ireland.

The subjoined correspondence needs no explanation. In carrying out the object in view the people of Raleigh have an opportunity of again twining their brows with the laurels of charity and liberality, and we feel assured they will.

Messrs. Doyle and McGowan:

GENTLEMEN:—In view of the unparalleled distress of the Irish nation, I hereby tender to you the use of my Hall with all the implements for one night, the proceeds of which are to be forwarded by the Postmaster for the benefit of the distressed people.

I am yours very respectfully,

STATE NEWS.

FRANKLIN.

FRANKLINTON, Feb. 6.—It is cold and cloudy, with the ground very muddy. The hessian fly is damaging wheat.

Trade is just sufficient now to be self-sustaining.

Married, this evening at 3 p. m., at the residence of Nathan May, Esq., Mr. J. G. Vaughn and Miss Emma Card.

Samuel Weathers died last Sunday morning at 2 o'clock, from a tumor or ulcer on the brain.

Bookram and Bennafeel can now stand with their hands up to their elbows in their breeches pockets, for the people are quiet and they have nothing to do.

We learn that Mr. William Wesler, of this place, has an offer from a Baltimore firm of $2,500 a year. Glad to hear it, for "Buck" is as clever a fellow as ever cracked a biscuit.

R. F. Hicks has in his store perhaps the largest side of meat ever brought here. It is about the size of a barn door, and weighs one hundred and sixty-three pounds.

A. Lowry, son of S. Lowry, mysteriously disappeared last week. He had neither been found nor heard from at last accounts. Cause of disappearance unknown.

L. R. Brassfields arrived last Thursday from Sedalia, Mo., and Alpheus Coleman departed to-day for Topeka, Kansas.

Dr. W. W. Green, the real estate king of Franklin, will plant 2,000 acres in cotton this year. He has done more to encourage the cultivation of that staple of trade in his section than any other man. Through his instructions many who went to him a few years ago in destitute circumstances are now well to do farmers. J.

DAVIDSON.

YADKIN COLLEGE, Feb. 6.—Last Monday brought us snow and it has been considerably colder ever since.

H. T. Phillips, Esq., had the honor to link Edward Green and Jennie Byerly, also Calvin Spaugh and Mittie Watson, all of Yadkin, in the holy bonds of matrimony on the 29th of January at the bride's residences. Edward Green asked the 'Squire what he charged, "Nothing," was the reply. "Well," said the sable groom, "I am much obliged to you for your opposition."

Two more students arrived at Yadkin College to-day from Goldsboro, N. C. Several more are yet expected this session. There will be three times as many students here next commencement as at any former commencement since the war. P.

A MODERN CYCLOPS.

Curious Case of a Mulatto Infant with Only One Eye, and that One in its Forehead.

New York Herald.

In the Wood Museum attached to Bellevue Hospital is an anatomical curiosity, which is creating considerable interest among scientific men of this and other cities. It is the head of a mulatto child whose deformity is revolting, but still calculated to create discussion on the origin of the ancient Greek mythology. Several years ago a physician in New Orleans was informed that a mulatto woman had given birth to a child which had an eye in the middle of its forehead. He found the statement on examination to be true, but the deformity was much greater than had been represented. This little one had neither mouth nor nose, but in place of the nose found two perfectly shaped ears. In the middle of its forehead was a large bright eye. In a short time the infant died and its body was purchased by the physician, who shipped it to Professor James R. Chilton, of New York, for examination. The Captain of the bark on which it was sent concealed the fact from his crew until they were at sea, when he injudiciously exposed it to view. The superstitious sailors became horrified at the presence of what they deemed a victim of the wrath of the Almighty, and after praying a while went to the Captain in a body and ordered him to throw the corpse into the sea. The Captain, through fear of the crew, consented, but managed to deceive them. Adroitly removing the head, he sewed the rest of the body in a sack and gave it to his men to throw overboard, while he concealed the head in his cabin. On his arrival in New York it was delivered to Prof. Chilton. The curiosity was carefully examined, and the Professor was preparing a treatise on the subject when he died. It was then transferred to Prof. Doremus, and some days ago it was presented to Dr. Wood, of Bellevue Hospital, for his museum, where it now is. Dr. Wood has requested Mr. Welsh, Professor of Histology at the New York College, to examine the head critically, and the examination is to be made in a few days in the presence of a number of scientific celebrities.

The Oldest Biscuit in the State.

Statesville Landmark.

J. W. A. Kerr, Esq., of this county, writes us that he has in his possession what he supposes to be the oldest biscuit in North Carolina. It was, he says, "kneaded and baked by Captain Wm. R. McNeely, just before the second Manassas battle, in Virginia. It is in good condition yet, but very light." Squire Kerr adds: "Captain McNeely was then a corporal in Company A, 4th N. C. regiment, but before the close of the war he worked himself up by promotion to the captaincy. He was as brave a soldier as ever trod the soil of Virginia, and was killed while with Stonewall Jackson on one of his raids up the Valley of Virginia. I think at this time that Milroy Banks & Co., acted as quartermasters and commissaries for the Confederate Army."

Masonic.

Knabe Pianos.

Mr. N. H. Bennett, agent for Wm. Knabe & Co., has another invoice of those celebrated pianos on the road. If you contemplate purchasing, wait and see them. They will be on exhibition at No. 20 Fayetteville St., about Saturday of this week. The best is the cheapest. It is poor policy to spend our money for cheap pianos without any reputation whatever.

POLITICAL RUMINATIONS

"ETERNAL VIGILANCE THE PRICE OF LIBERTY."

Some Pat Suggestions and Very Sound Advice to the North Carolina Democracy.

Correspondence of the News.

Everybody is talking politics, and speculations run high as to who are to be the next standard bearers of our party.

It would be difficult to determine which one of the many statesmen whose names have been brought into prominence in connection with the Presidency, is the choice of the North Carolina Democracy. Seymour, Bayard, Tilden, Thurman, Hendricks, Church and others, all have their friends, and, as before remarked, it would be hard to tell who has the greater number of adherents. Seymour or Bayard, perhaps.

The Gubernatorial question is hardly less perplexing, and one must guess at long range, indeed, to tell who the next occupant of the Executive office will be. Governor Jarvis, Colonel Holt, General Cox and Judge Fowle seem to be the favorites just now with the Democrats, while on the other hand the leading Republican horses, it would appear, are Judge Reade, Doctor Grissom and Judge Buxton. It seems to be pretty generally conceded however, that if Judge Reade will accept the nomination, it will be tendered him. It is said the Judge is no mean opponent on the stump, though I have never heard him, and it becomes us to put forward our best and strongest man. One who will unite all sections—a consideration very necessary to our ultimate success.

It will not do for us to be caught napping, as we were in two of the districts at the last Congressional election, when Colonel Waddell and Major Yeates were defeated solely on account of the overconfidence and invigilance of the Democratic voters of their respective districts. Governor Vance, doubtless the strongest man we had in our ranks, was only elected by twelve thousand four hundred and sixty majority. It will thus be seen that it is of the first importance that we poll a full vote; the Republicans will make a mighty effort to carry this State this fall—every man of them will vote (did you ever know one not to?) and they will use every means in their power to elect their candidates. A majority of twelve thousand out of a cast vote of two hundred and thirty-four thousand is not such a majority but that it might be overcome if there is any considerable apathetic feeling manifested on the part of the Democrats. Let me then, through the medium of your instructive journal, urge upon our folk the necessity of being constant, careful and true. Select your representative men as delegates to the State Convention; let them attend that convention with an unbiased mind; nominate their best and strongest man, and after nominating them, work for them; go to the polls and vote for and *elect them!* G.

Raleigh, Feb. 7.

A peaceful contest has been going on for many years in the Prussian provice of Posen between the Polish and German races. The original inhabitants of the province were Poles, but there had been a large immigration of Germans during the past thirty years, and the two races have thus fought quietly and peacefully for the possession of the land. Thirty years ago the Germans owned only 15,000 acres in Posen to 221,850 held by Poles; but at the end of 1879 this showing was reversed and the Germans had managed to dispossess many of the Poles of their land and held 145,390 acres, while the Polish share of the country had dwindled to 91,543 acres. It is, therefore, only a question of time when the Poles will be completely dispossessed of the land which once was theirs. The German papers are boastful over this showing, and consider it proof of the superior industry and energy of the German race. It should be stated, however, that this acquisition of land in Posen has been accomplished by a people who, while they are German in allegiance and language, are not so in race or religion—that is, by the Israelites.

Two Organs.

Regulate first the stomach, second the liver; especially the first, so as to perform their functions perfectly and you will receive at least nineteen twentieths of all the ills that mankind is heir to, in this or any other climate. Hop Bitters is the only thing that will give perfectly healthy natural action to these two organs.

DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.

SUNDAY FEBRUARY 8, 1880

THE New York *Herald* has headed a subscription list, opened by that paper, with a donation of $100,000.00 for the relief of the Irish poor.

SHERMAN is to capture the Virginia delegation to the Republican National Convention also, it would appear.

EX-GOVERNOR SEYMOUR, it seems, has again declared his unwillingness to become a Presidential candidate, and it would seem the anti-Tilden New York Democrats will turn to Chief Justice Church as their Presidential candidate. Every effort will be made, however, between now and the assembling of the National Convention to induce the sage of Deerfield to permit his name to be used. There are a number of influential papers who still stick to him, despite his repeated declarations to the contrary, and insist that if he is nominated he will accept. Notable among these is the Washington *Post*. Well, we shall see what we shall see.

THE contest over the will of the late Mrs. Sarah A. Dorsey, who left Mr. Jefferson Davis her valuable estate, has begun in earnest in the United States Circuit Court, of Louisiana, and will probably be decided by that tribunal at an early day. The amount involved is about $25,000.00.

WESTERN NORTH CAROLINA RAILROAD.

The Directors of this corporation are called to meet on Tuesday, to consider of propositions for the purchase of the State property held therein.

Much has been said in regard to this public work within the past few months, and some mistakes have been made. The NEWS has been written down as an enemy of the Western North Carolina Railroad, and an opponent of its extension. A greater mistake never was made.

We are, however, opposed to two things: First, the unnecessarily burdening our people with taxes for building railroads, or any other purpose; second, we are equally opposed to needlessly sacrificing the property of the State in the Western North Carolina Railroad or elsewhere. If this property is as valuable as has been asserted, or as it is likely, from the bids made for it, instead of giving it away, to anybody, it does seem that the State is in a position to utilize it. On the other hand, if the State should conclude to keep control of this property we see no reason why, so near completion, it can not be made to finish itself, and after this year at last, ask for no further appropriations of money from the Treasury.

We understand that the Governor is North now on negotiations respecting the Western Road. We have no fear that he will countenance any proposition looking to its sacrifice. We know, with the consent of the Legislature necessary, it cannot be sacrificed.

THE EXODUS.

The exodus of some few hundreds of North Carolina colored people, is not, in itself, an unmixed evil.

We take it that those who have departed from their homes, in some of the eastern counties, to a land of inhospitable strangers in the Northwest, constituted in a large part an idle, discontented adventurous population, and that there will neither be an extensive following from the really valuable and desirable element, nor an aggravated inconvenience because of the abrupt departure of those who have gone, or may hereafter go.

We have regretted and still regret the colored exodus, but chiefly on account of they who have gone. We are not among those, if there be any such, who desire to get rid of our colored population. As in the days of slavery, so now, the colored people are an object of solicitude on the part of all true Southerners, not because of any possible mercenary consideration, but from association, habits, and the common sentiment of humanity. To a southern man a negro stands in the relation of a household necessity. We have been so long accustomed to his presence and his services—have come to look upon them as so inseparable from the motion and operation of our every day life, that his absence is noted as a missing link in the family chair, a derangement of the social system, which only his presence will answer to.

This feeling which is known of all southerners, this relation, so close and intimate and so natural, that it has scarcely ever provoked inquiry or investigation, is something that the Northern man can never understand. We can no more comprehend their relations with white hired help, than they can understand our relations with the negro. They were accustomed to regard the slave as an "institution." When he was freed, they thought they had solved all, but as a freeman, the negro at the South is just as much an institution—an institution peculiarly Southern—as ever, and we never expect to do without him. We know him, and we like him, for in every essential, he is a part of us.

But the exodus, however much to be deplored is not an unmixed evil. The investigation which it has provoked has drawn the public attention of the county, to the condition of the colored people of North Carolina as nothing else could have done, and that condition is demonstrated to be most satisfactory indeed. The facts elicited cannot fail to impress the thoughtful portion of the Northern public mind.

A Murderer's Request.

Henry Moet, convicted of the murder of his wife and her paramour, at Taghkanick, near Hudson, N. Y., has been sentenced to behanged March 19. After sentence, the prisoner coolly asked that he be hanged in public, and that he be allowed to speak one hour and a-half.

The first choice of the New York *Times* for President is Grant; its second choice is Washburne. The first choice of the New York *Tribune* is Blaine, and its second choice seems to be Sherman. The first choice of Conkling is—Conkling; and his second choice is—Conkling, and the "machine" is his slave, to fetch and carry, and cringe and fawn, and delight in his pap and patronage.

The Princely Noses not Tattooed.

London Morning Post

The stories lately current about their Royal Highnesses, the sons of the Prince of Wales, now on a cruise in the Bacchante, are untrue. It is not the fact, as has been foolishly asserted, that the young princes have been tattooed on the nose with an anchor. The tale, when brought home, was received with well-deserved incredulity, and it was felt that their own common sense, not less than the care of those about them, would be the best guarantee against any such absurdity as that which has obtained an unmerited currency. The truth is that, as when, for instance, on crossing the line certain traditional ceremonies are observed, so on first touching at a great port other harmless freaks are often indulged in, and the identical experience of the princess has been undergone by H. R. H. the Duke of Edinburgh, Count Gleichen, and nearly every other sailor, whether royal or not.

Accordingly, at Gibralter the midshipmen of the Bacchante indulged in the amusement of placing on their faces the representation of tattoo marks, and their temporary freak has been reported as if they had really tattooed. The Bacchante proceeded across the Atlantic to the West Indies, and at Barbadoes Mr. and Mrs. Childers had the honor of dining at the Governor's table with their Royal Highnesses on the 30th of December. On that day there was not the faintest trace of the Gibralter freak upon the countenances of the princes. The matter was never mentioned or referred to by those about them, and the astonishment of Mr. Childers on arriving a few days ago in England was extreme on hearing that it was supposed that their Royal Highnesses bore upon their faces indelible marks. We are now happy to be able to dismiss this idle tale into the limbo of unworthy gossip.

An Important Personal Item.

Charles S. Prentice, of Toledo, O., went to Paris and thence to England to be treated for Bright's disease, and after the best physicians of both countries had done what they could for him gave up in despair and returned to America to die. Here he received further treatment from other skilful physicians without benefit, and while "listlessly lingering in pain and anguish," he says, heard of the Safe Kidney and Liver Cure, took it, and was completely cured in a few weeks. He gives circumstantial details of his painful experience and astonishing cure, in a long letter to H. H. Warner & Co., which will be forwarded on application.

Mr. J. L. Stone, the Sewing Machine, Piano and Organ man, left this morning for New York and other Northern cities, and will return in about two weeks. Those anticipating buying Pianos or Organs can save from $50.00 to $100.00 by waiting until he returns, as he will be prepared to furnish any instrument made in the United States.

A Down-town Merchant.

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists at 25 cents a bottle.

Rosadalis.

THE GREAT SOUTHERN remedy for the cure of Scrofula, Scrofulous Taint, Rheumatism, White Swelling Gout, Goitre, Consumption Bronchitis, Nervous Debility and all diseases arising from an impure condition of the Blood.

The merits of this valuable preparation are so well known that a passing notice is but necessary to remind the readers of this journal of the necessity of always having a bottle of this medicine among their stock of family necessities.

Certificates can be presented from many leading Physicians and Minister, and heads of families throughout the South, endorsing in the highest terms The Fluid Extract of Rosadalis.

DR. S. WILLIAM CARR, of Baltimore says he has used it in cases of Scrofula and other diseases with much satisfaction.

DR. C. PUGH, of Baltimore, recommends it to all persons suffering with diseased Blood, saying it is superior to any preparation he has ever used.

EX JABNEY BALL, of the Baltimore M. E. Conference South, says he is so much benefited by its use that he cheerfully recommends it to all his friends and acquaintances.

CRAVES & Co., Druggists, of Gordonsville, Va., says it never has failed to give satisfaction.

Samuel G. McFaddin, of Murfreesboro, Tennessee, says it cured him of Rheumatism when all else failed.

Rosadalis is not a secret quack preparation, its ingredients are published on every package. Show it to your Physician and he will tell you it is composed of the strongest alteratives that exist, and is an excellent blood purifier. Did our space admit we could give you testimonials from every State in the South and from persons known to every man, woman and child either personally or by reputation.

Rosadalis is sold by all Druggists.

KNOW THYSELF

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this assertion should procure the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled "SCIENCE OF LIFE; or SELF-PRESERVATION." Exhausted vitality, nervous and physical debility, or vitality impaired by the errors of youth or too close application to business, may be restored and manhood regained.

Two hundredth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, three hundred pages, more than 50 valuable prescriptions for all forms of prevailing disease, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in French cloth; price only $1.00, by mail post-paid.

The London Lancet says: "No person should be without this valuable book. The author is a noble benefactor."

An illustrated sample sent to all on receipt of 6 cents for postage.

The author refers, by permission, to Dr. S. Fisher, president; W. L. Faries, vice-president; W. Paine M. D.; J. Gaunitt, M. D.; H. J. Doucet, M. D.; E. Kline, M. D.; J. R. Holcomb, M. D.; R. Lynch, M. D., and M. R. O'Connell, M. D., faculty of the Philadelphia University of Medicine and Surgery; also the faculty of the American University of Philadelphia; also Hon. P. A. Bissell, M. D., president of the National Medical Association.

Address Dr. W. H. PARKER, No. 4 Bulfinch street, Boston Mass. The author may be consulted on all diseases requiring skill and experience.

Cuticura

BLOOD AND SKIN HUMORS,

The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, ruining the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

Messrs. WEEKS & POTTER: Gentlemen—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs —— of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

A RUNNING SORE

CURED IN ONE WEEK.

Messrs. WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.
MILFORD, ME., June 10, 1878.
NOTE.—Reader, don't you think these cures remarkable?

CUTICURA SOAP,

MEDICINAL AND TOILET,

is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skins of infants, for gentlemen who shave and are troubled with tender faces, for those who desire a clean and wholesome Skin and Scalp, and for all purposes of the toilet, bath and nursery. Its being useful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

The CUTICURA REMEDIES are prepared by WEEKS & POTTER, Chemists and Druggists, 360 Washington street, Boston, and are for sale by all druggists. Price of CUTICURA, small boxes, 50 cents; large boxes, $1. RESOLVENT, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

TUTT'S PILLS

SYMPTOMS OF A

TORPID LIVER.

Loss of Appetite, Bowels costive, Pain in the Head, with a dull sensation in the back part, Pain under the shoulderblade, fullness after eating, with a disinclination to exertion of body or mind, Irritability of temper, Low spirits, with a feeling of having neglected some duty, Weariness, Dizziness, Fluttering at the Heart, Dots before the eyes, Yellow Skin, Headache generally over the right eye, Restlessness with fitful dreams, highly colored Urine.

IF THESE WARNINGS ARE UNHEEDED, SERIOUS DISEASES WILL SOON BE DEVELOPED.

TUTT'S PILLS are especially adapted to such cases, one dose effects such a change of feeling as to astonish the sufferer.

CONSTIPATION.

Only with regularity of the bowels can perfect health be enjoyed. If the constipation is of recent date, a single dose of TUTT'S PILLS will suffice, but if it has become habitual, one pill should be taken every night, gradually lessening the frequency of the dose until a regular daily movement is obtained, which will soon follow.

Dr. I. Guy Lewis, Little Rock, Ark., says:

"After a practice of 25 years, I pronounce TUTT'S PILLS the best anti-bilious medicine ever made."

Rev. F. R. Osgood, New York, says:

"I have had Dyspepsia, Weak Stomach and Nervousness. I never had any medicine to do me so much good as TUTT'S PILLS. They are as good as represented."

Office 35 Murray Street, New York.

TUTT'S HAIR DYE.

GRAY HAIR OR WHISKERS changed to a GLOSSY BLACK by a single application of this DYE. It imparts a Natural Color, acts Instantaneously, and is as Harmless as spring water. Sold by Druggists, or sent by express on receipt of $1.

A Rare Chance for Investment.

Wishing to give my whole attention to the lumber trade, in which I am about to engage on a larger scale than ever before, I offer for sale on terms to suit the times the following valuable property in Cary:

I.

MY PLUG TOBACCO FACTORY, in a BRICK building 50x80 feet, 3 stories high, the lower story being two large storerooms. The Tobacco Machinery is new and has a capacity of manufacturing 1,000 lbs. per day. The factory has been worked a year, and a good beginning for a trade has been made. The building and the machinery will be sold together, or separately to suit purchasers.

II.

GRAIN MILLS,

in a 3 story brick building, 28x40 feet. Two Wheat Mills and one Corn Mill, new and complete with a capacity for grinding 100 bushels of wheat and 100 bushels of corn a day, and can compete in quality of flour with any mills in the State. The mills have had a very large local patronage during the past year. They are driven by a 60 HORSE POWER STEAM ENGINE, improved, of the make of Talbott & Sons, Richmond.

Attached to the engine is also a 60 Saw COTTON GIN and power press, at a safe distance (about 100 feet) in a different lot. The engine has a brick smoke-stack 60 feet high, making the danger from fire the least possible and the rate of insurance very low.

III.

Several well built and handsome residences, with lots and gardens of about 1 acre to each dwelling. They are wooden buildings, 2 stories high, with from 5 to 7 rooms each situated in desirable locations in the village.

Besides these, 4 one acre lots, with cottage buildings of 2 rooms.

TERMS: One third Cash ; balance on reasonable time.

GOOD FARMING LANDS FOR SALE

Having changed my business from farming to saw milling, I now offer three hundred acres good farming lands in an around the thriving town of Apex, for sale on reasonable terms. These lands are divided into four separate tracts, ranging from 58 to 112 acres each. About 127 acres cleared and in fine farming condition, about all fresh and well adapted to the growth of cotton, wheat, corn, oats, tobacco and field crops generally.

Apex is situated on the R. & A. A. L. R. R., 15 miles from Raleigh, in a healthy and moral community, good schools, churches, &c., in the town.

G. W. ATKINSON.

I also have one three acre lot in the city of Raleigh with dwelling house and some other improvements, for sale.

LOCAL BRIEFS.

—Sunday.

—Splendid weather.

—Capitol notes scarce.

—Wake Superior Court meets to-morrow.

—The courthouse was barren of items yesterday.

—Some of the firemen have "got their backs up."

—Justice Barbee had not an offender before him yesterday.

—"Remember the Sabbath day to keep it holy."

—And now the aspiring politician lovingly puteeh you on the back.

—Yesterday's Revenue receipts were $883.20.

—Two more marriage licenses were issued yesterday.

— Mr. E. S. Parker of the Alamance *Gleaner* is in town.

—W. S. Ball, Esq., of Greensboro, is in the city.

—Captain R. T. Fulghum, of Greensboro, was in the city yesterday.

—A large number of countrymen in the city yesterday, and trade appeared to be lively.

—Read the communications in reference to the aiding of the Irish Sufferers, in another column.

—Major John D. Whitford, President of the Atlantic and North Carolina Railroad is at the Yarboro.

—Mr. Jacob Emerson, Raleigh, has a letter addressed to him at the postoffice with no stamp on it.

—Quite a number of marriages within the last month, and a goodly number still on docket.

—There is a postal in the postoffice written to a Mr. Hunter and signed "W. M. P."

—Mr. Benj. H. Cosby, formerly of Raleigh but now a resident of Asheville, is in the city on a visit.

—John O'Kelly, colored, of this city, has been testifying before the Senate Exodus Committee in Washington.

— Union prayer meeting this afternoon at 4:30 o'clock at the rooms of the Young Men's Christian Association in the Holleman building.

—Read Mr. F. H. Heartt's local advertisement in another column. He has a large and fresh supply of choice garden seed. If you want a good articles, buy your seed at Heartt's drug store.

—Rev. J. S. Watkins, pastor of the First Presbyterian Church, delivers a sermon to-night by request of the Y. M. C. A., especially for young men. A large number will doubtless be in attendance to hear this discourse.

—One of the young men belonging to a choir had his hair closely cut by a generous barber Saturday night. Sunday he sang a solo "cover my defenseless head," and he blushed like a lobster.

—Mr. C. B. Edwards, of the firm of Edwards, Broughton & Co., has purchased the Depkin property on west Martin street, djoining the residence of Mr. W. P. Wetherell, and will shortly take up his residence there.

—Bishop Lyman occupies the pulpit of the church of the Good Shepherd this morning. Owing to the absence of the Rector, Rev. E. R. Rich, there will be no service at this church to-night.

—Mrs. Sherwood and Son, Frank, daughter and grandson of our respected townsman, Chas. Dewey, Esq., arrived in the city on Friday night from Rome, New York, and will make Raleigh their future home.

—We are glad to record the fac that the venerable Charles Dewey, Esq., president of the Raleigh National Bank, who has been confined to his room by indisposition for the past few days, was able to be at his post again yesterday.

—The Young Knights of Temperance hold a meeting Friday night for the purpose of thoroughly reorganizing their association. All the old members in good standing are requested to be on hand.

—Rev. Dr. Atkinson has had the misfortune to have his cow stolen from him. That was a mean thief, for

"Who'er would steal a preacher's cow
Deserves a necktie made of tow."

—Postmaster Holden will receive, at the postoffice, monies for the relief of the Irish poor. He will forward the same to the New York *Herald*. The *Herald* acknowledges the receipt of all contributions for this noble object, by publishing the amount and names of all contributors.

—It was rumored on the streets yesterday that the Legislature is to be called in extra session to consider the advisability of selling the Western N. C. Railroad. It was also stated that the parties who contemplate making the purchase are to bear the expenses of the session.

—His Honor, the Mayor, could not muster up a single offender yesterday, and the cour will take a rest until Monday morning, when the usual number of Saturday night and Sunday drunk and down's are expected to receive that functionary's attention.

—The revenue receipis for the past week footed up as follows:

Monday,	$ 885.26
Tuesday,	860.03
Wednesday,	744.16
Thursday,	8,697 75
Friday,	1,096.08
Saturday,	383.20
Total,	12,664.48

—A pitiful sight was witnessed by the reporter yesterday. A little white boy, appearantly about six years of age was seen coming up Fayetteville street. He was barefooted, and the clothing he had on was only a jacket and a pair of pants made out of calico and every few steps he would stop and begin shivering. We could not find out where he was from or where he was bound; we hardly think he knew himself. It was a lamentable spectacle, and it is to be hoped some generous party will take him up and care for him. Who knows; he may be one of the future Presidents of this country.

—Some of the disappointed have sent out the following address to the army of chagrined would-be census supervisors. They are expected to pay especial attention to this call and be prompt in attendance. "All disappointed radical aspirants for Supervisor for this, 2nd District, will assemble for mutual condolence and congratulation, upon the grounds of the North Carolina Agricultural Society near this city, on the 1st day of April, 1880, when and where those who cannot Card well will be Well-carded. As space accommodations are limited by a high fence, no disappointed democrats will be admitted. A sympathizing friend has provided for their use 100 acres of land around Penny's mill pond. The point of least shelve and shallow is the South side near the dam. Those who prefer trees to cold water will be provided with strong hempen cords."

The Churches To-Day.

Indigestible Bread.

The reason why adulterated baking powders make bread and biscuits very indigestible, is because they harden the gluten of the wheat and render it less soluble. The purity and perfect combination of Dr. Price's Cream Baking Powder makes all articles easy of digestion.

Mrs. Partington Says

Don't take any of the quack rostrums, as they are regimental to the human cistern; but put your trust in Hop Bitters, which will cure general dilapidation, costive habits and all comic diseases. They saved Isaac from a severe extract of tripod fever. They are the *ne plus quum* of medicines.

What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.

In the treatment of Dyspepsia, Chlorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."

W. F BARR, M. D., Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anæmia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment.

GEO. T. HARRISON, M. D., New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for chronic diseases.

G. M. D. PATTERSON, M. D., Eaglewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.

E. O. GRIGSBY, DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from druggists always mention Seven Springs Mass. Price $1 per package or six for $5, sent by mail, postpaid.

LANDRUM & LITCHFIELD, Abingdon, Va.

Mrs. Joe Person's Indian Remedy.

We print elsewhere additional testimonials as to the wonderful curative qualities of this valuable medicine. To our own personal knowledge many persons in this vicinity have used it with signal benefit, and we note that it has a large sale in this city. We rejoice that the estimable and enterprising lady, who is doing so great service to afflicted humanity, is receiving a reward for the benefits she is conferring upon those whose diseases have been considered incurable. Heretofore, when the physician announced that the patient was afflicted with scrofula, his doom was considered sealed, and he had before him a lingering sickness and painful death; but now, there is not only hope for the diseased, but almost a certainty of cure. Many who have been snatched from the jaws of death by the use of this medicine, are now in the flush of health and vigor. The medicine is not only a specific for scrofula and cutaneous diseases generally, but is a pleasant and highly beneficial tonic, invigorating the system, improving the appetite, and really rejuvenating the body.—*Newbernian.*

The medicine can be obtained in Raleigh from Wm. Simpson, F. H. Heartt and Pescud, Lee & Co. Persons desiring to see testimonials of cures, can obtain circulars by application to them or Mrs. Person.

PUBLISHED AT BALTIMORE, MD.,

1880. DAILY, EXCEPT SUNDAY. 1880.

A Paper for all classes of the People and in every Department of Life.

Independent and Conservative.

THE SUN is conservative in politics, independent in tone and non-sectarian. Its proprietors point to the principles that have governed it in the past as a guarantee of its course in the future. On all subjects of public interest it will continue to express its opinions, according to its best judgment, with a view only to the promotion of the best interest of the public. All the freshest news, at home and abroad, excluding only that which is prurient or sensational, is given from day to day in its columns. In addition to what is furnished by the Associated Press and by the local reporters of The Sun, no expense is spared to keep its special correspondence, that from Europe as well as from the Pacific Coast, and from its Washington Bureau abreast of the times, and to supplement it, as occasion may require, at every other point to which the current of events give prominence.

The Financial and Commercial Reports of The Sun contain at all times full and trustworthy accounts of all movements and operations in the leading markets, as well as that of Baltimore, with special telegraph service from New York of the latest stock and other transactions; while its reports of the ruling prices of breadstuffs, provisions, and other leading articles of trade and commerce, will embrace the latest intelligence, both at home and abroad, of each day's doings, up to the hour of going to press.

As a Paper for the People, filled with the freshest and most varied news, The Sun has acquired a reputation which is not surpassed by any of its contemporaries, while its large circulation, not only locally, but in many of the States of the Union, makes it the most valuable medium for all classes of advertisers.

THE NEW FRYER,

This special invention meets a long felt need for a more convenient method of removing Oysters, Potatoes, &c., from the hot fried, with greater quickness, and all at once, from the boiling fat in which they have been cooked, and allowing the fat to drain from them while they remain over the fire; thereby getting rid more certainly of the soddening grease, the objection so often made of the ordinary fried food cooked in the ordinary frying-pan is done away with.

By dispensing the supporter, you have for omelettes and other things for which a drainer is not required, a deeper and better quality of frying-pan than has heretofore been made.

THE OVAL CAKE

is the most economical form of Washing Soap. All bar or square cakes wear down in the form of flat pieces, too thin to handle, and therefore, wasted; while the OVAL CAKE of

COLGATE & CO'S
